12 June 1957

25X1

MEMORANDUM FOR: Deputy Project Director  
THROUGH : Project Director of Administration  
SUBJECT : Brigadier General James P. Newberry  
(Project Briefing)

1. On 4 June 1957 Colonel Gerald Keeling, USAF, contacted the undersigned to advise that Brig. General James P. Newberry has been selected to replace Brig. General Les Light, Deputy Chief of Staff for Materiel, USAFE. As a result General Newberry is now being briefed on various activities of direct concern to USAF Headquarters. In keeping with this Colonel Keeling is responsible for scheduling briefings of General Newberry regarding the activities of this Agency; for instance, Project [redacted] and, in view of General Light's support of this activity, Project AQUATONE.

2. Colonel Keeling indicated General Newberry possesses a Top Secret clearance and is scheduled for the briefing concerning the Agency on the 20th of June. Colonel Keeling suggested we brief General Newberry on AQUATONE at that time. In view of the support furnished our Project by General Light, it seems appropriate that we participate in the briefing of General Newberry while he is here at Headquarters. By this means emphasis can be placed on matters of security and in view of the complexity of our support requirements, any problems the General might have could most easily be resolved at that time.

3. With your concurrence the undersigned will initiate the appropriate review of clearance data and also arrange with Colonel Keeling for a Project briefing of General Newberry. Your suggestions regarding additional Project participants in such briefing would be appreciated.
